## Introduction

The Department of Human Resources (DHR) Georgia Oral Health Prevention Program (GOHPP) is located within the Division of Public Health. The mission of the GOHPP is to prevent dental disease for Georgia's children through education, prevention and early treatment. By using portable dental equipment (1-2 in each health district) or mobile dental trailers and vans (FY2006: 11 trailers in 10 health districts and 2 vans in Fulton) to provide school based prevention services on a regional basis, Public Health (PH) is effective in reaching low and middle-income children statewide and throughout each district/region.

The Georgia Health Policy Center (GHPC) was established in 1995 as a nonpartisan forum for consensus building among diverse interest groups. The Health Policy Center's fundamental mission is to improve the health status of all Georgians through research, policy development, and program design and evaluation. Strategically located in the Andrew Young School of Policy Studies at Georgia State University, Center staff collaborates with university faculty and representatives of numerous organizations to assist in formulating policy at the state and national levels on health care quality, access, and cost.

The GHPC has produced many Child Policy Briefs that address oral health and access to care for children. In May 2001, the Georgia Department of Human Resources contracted with the GHPC to produce the qualitative and quantitative report, *Kids and Dental Providers in Georgia: The Gap between Supply and Demand*<sup>1,2</sup>. The August 2002 *Evaluation of the Georgia Oral Health Prevention Program* provided further documentation of oral health prevention activities in each of the dental public health districts and an assessment of local level oral health program needs. Through subsequent DHR contracts, the quantitative portion of the evaluation report was updated with calendar years 2001, 2002, and 2003 Medicaid data analysis and Public Health information.

This current report produces the latest update available with calendar year 2004 Medicaid claims data analysis of services provided to Medicaid and PeachCare enrolled children under age 19. This report provides data documenting progress made in providing oral health access to care for low and middle-income children and illustrates continuing challenges. The presented results provide useful information to state and local oral health providers and advocates for program planning and decision-making.

---

<sup>1</sup> Available at <http://www2.gsu.edu/~wwwghp/cpipublications.htm>

<sup>2</sup> A policy brief based on the full report is available at <http://www2.gsu.edu/~wwwghp/publications/children/childpolbrf/cpb dentalhealth0101.pdf>

## Methodology

The tables and figures produced for this report are based on analyses of calendar year 2004 Medicaid claims data by Georgia Health Policy Center (GHPC) staff and additional tables provided by the Department of Human Resources (DHR), Division of Public Health (DPH), Family Health Branch (FHB), Oral Health Section (OHS).

The following figures were produced by the Georgia Health Policy Center from CY2004 Medicaid claims data analyses: Figures 1, 2, 3, 4, 5, 6, 7, 8, 9, and Maps 2-7. Information on eligibility for the Free and Reduced Lunch Program for figure 7 was provided by the Georgia Department of Education, Office of Policy and External Affairs, Data Collection and Reporting Unit.

Figure 10 was produced by the GHPC from tables provided by the DHR, DPH, FHB, Oral Health Section. Figure 11 was produced by the DHR, DPH, FHB, Oral Health Section. Both, figures 10 and 11 were created with information provided by the Georgia Board of Dentistry. Map 1 was provided by the DHR, DPH, Office of Health Information and Policy.

For Figures 1, 8, and 9 county and district level PeachCare and Medicaid child counts were queried directly from the 2004 Medicaid claims data. The statewide total is a separate query directly from the claims data and takes into account the fact that children move among health districts. The “all programs total” is a separate query directly from the claims data and takes into account that children may move between Medicaid and PeachCare programs due to changes in parents’ income status.

For Figure 2, individual county and district counts of Medicaid and PeachCare enrolled dental providers are not intended to total to the statewide count. Dentist counts were queried directly from the 2004 Medicaid provider file. The statewide count takes into account that dentists may practice in more than one health district. Dentists practicing in more than one district are counted only once in the statewide total.

Rounded numbers are used throughout the report for consistency and to highlight key data information.

## **Preface: How to Use the Data**

Funding for this publication is provided through the Georgia Department of Human Resources (DHR), Division of Public Health (DPH), Family Health Branch (FHB), Oral Health Section (OHS) and a Health and Human Resources (HRSA) grant; States Oral Health Collaborative Systems (Georgia Access to Dental Services/GADS III, federal fiscal years (FFY) funding for 2006 and 2007).

*Public Health Oral Health Surveillance* activities provide information that is not readily available from other resources. These activities include population surveys, assessments, and analysis of data to provide measurements of access to oral health care.

This publication is a collaborative and contracted project between Georgia State University's Georgia Health Policy Center (GHPC) and the DHR Oral Health Section. The data provided are a measurement of Medicaid and PeachCare dental claims submitted by dental providers statewide, documenting prevention and treatment services provided to Medicaid and PeachCare enrolled children ages 0 through 18 years old. These public health service data provide an assessment of access to oral health/dental care through publicly funded insurance programs.

Data provided in this publication are intended for use by public policy leaders and decision makers; the professional and academic dental community, and collaborative partners and advocates. This dental service information provides support for building and strengthening public oral health program infrastructure, increasing dental treatment service availability; and to support community collaborations that increase access to care for underserved populations in Georgia.

## Executive Summary

Detailed tables outlining calendar year 2004 (CY2004) Medicaid/PeachCare service utilization are contained in the pages that follow. A summary of notable statewide observations is presented below. This information is provided to assist public program planning, statewide infrastructure building, and to support community collaborations that increase access to care.

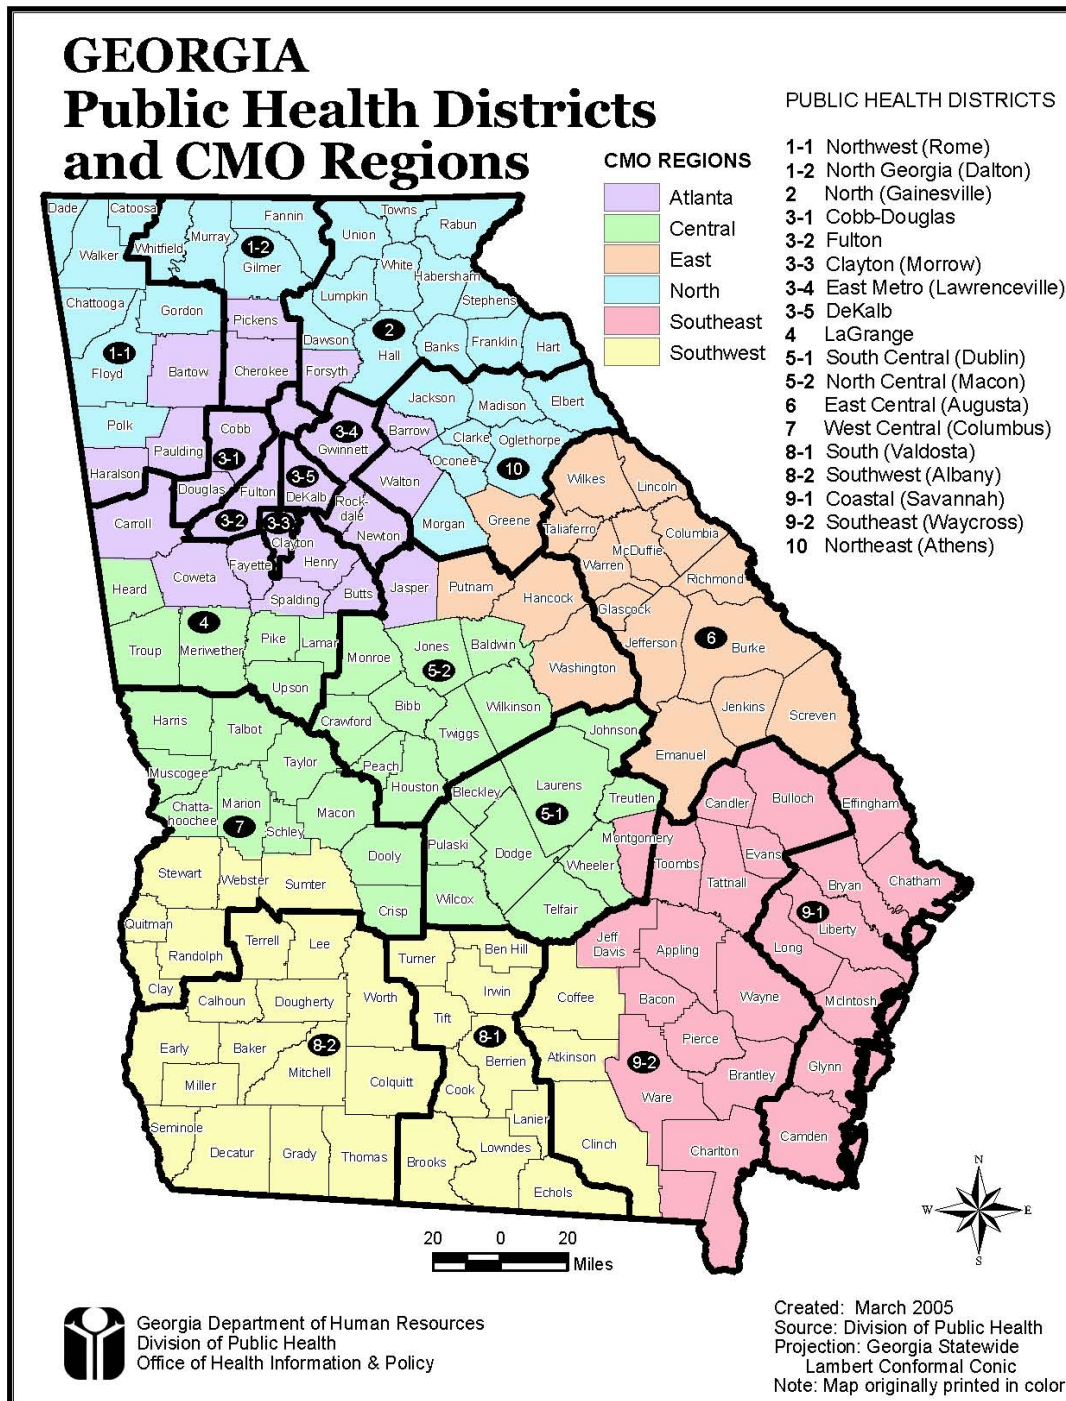

- Dental service claims were filed for 50 percent of PeachCare enrolled children and 34 percent of Medicaid enrolled children statewide in CY2004.
  - ♦ The highest percentage of PeachCare enrolled children (55%) receiving services was reported in the Athens region.
  - ♦ The highest percentage of Medicaid enrolled children (38%) receiving services was reported in the Augusta region.
- CY2004 statewide dental service claims were reported for 38 percent of children enrolled in PeachCare and Medicaid combined. Healthy People 2010 Oral Health Objective 21-10 sets the nationwide target at 56 percent.
- CY2004 combined statewide dental service claims were reported for 47 percent of PeachCare enrolled children and 31 percent of Medicaid enrolled children for preventive care.
  - ♦ The highest percentage of PeachCare enrolled children receiving preventive care (51%) was reported in the Athens region.
  - ♦ The highest percentage of Medicaid enrolled children receiving preventive care (35%) was in the Augusta region.
- Restorative dental service claims were filed for eleven (11) percent of PeachCare enrolled children and nine (9) percent of Medicaid enrolled children statewide in CY2004.
  - ♦ The highest percentage of PeachCare enrolled children receiving restorative care (15%) was reported in the Dublin region.
  - ♦ The highest percentage of Medicaid enrolled children receiving restorative care (10%) was in the Albany region.
- CY2004 statewide dental service claims for preventive care were reported for 35 percent of children enrolled in PeachCare and Medicaid combined. The Healthy People 2010 Oral Health Objective 21-21 sets the nationwide target at 57 percent.
- CY2004 statewide dental service claims for restorative care were reported for nine (9) percent of children enrolled in PeachCare and Medicaid combined.
- Clayton County has the highest percentage of licensed (54 in CY2004) dentists that are both “Participating” (85% or 41) and “Active” (58% or 28) in the Medicaid and PeachCare programs.<sup>3</sup>
- Clayton County has the lowest ratio of dentists per 1,000 population (.18), with Fulton County having the highest ratio (.88 per 1,000).
- Dalton and LaGrange Districts have the highest ratios of dental hygienists (.84). per 1,000 population.

---

<sup>3</sup> A “participating” dentist saw at least one Medicaid or PeachCare child during CY2004. An “active” dentist saw at least one Medicaid or PeachCare child per week in CY2004.

Map 1

Schley and Screven Counties have been reassigned to CMO regions directly to the south.

Schley County has been assigned to the Peach State-Avesis WellCare-Doral CMO Region;

Screven County has been assigned to the Amerigroup-Doral WellCare-Doral CMO Region.

\*9-1 Savannah and 9-3 Brunswick health districts merged into the "9-1 Coastal" health district, January 2005.

\*Corresponds to Table 2, page 10 in the CY2003 Update.

**Healthy People 2010 Oral Health Objective #21-10:** Increase the proportion of children (and adults) who use the oral health care system each year.

National Target: 56 percent.

**Note 1:** District and county column totals are not intended to add to the statewide total. The statewide total takes into account that children move from one district or county to another over time.

**Note 2:** District and county row totals are not intended to add to the all programs total. The all programs total takes into account that children switch programs over time. Row percentages are based on enrollment number denominators contained within the row. See the methodology section for further explanation.

**Note 3:** Category of service codes for “Any Dental Service” are 450 and 460.

**Figure 2\***  
**Percent of Medicaid and PeachCare Enrolled Children under Age 19 Receiving “Any Dental Service”**  
**CY2004 by District and Statewide**

\*Corresponds to Figure 2, page 11 in the CY2003 Update.

**Healthy People 2010 Oral Health Objective #21-10:** Increase the proportion of children (and adults) who use the oral health care system each year.

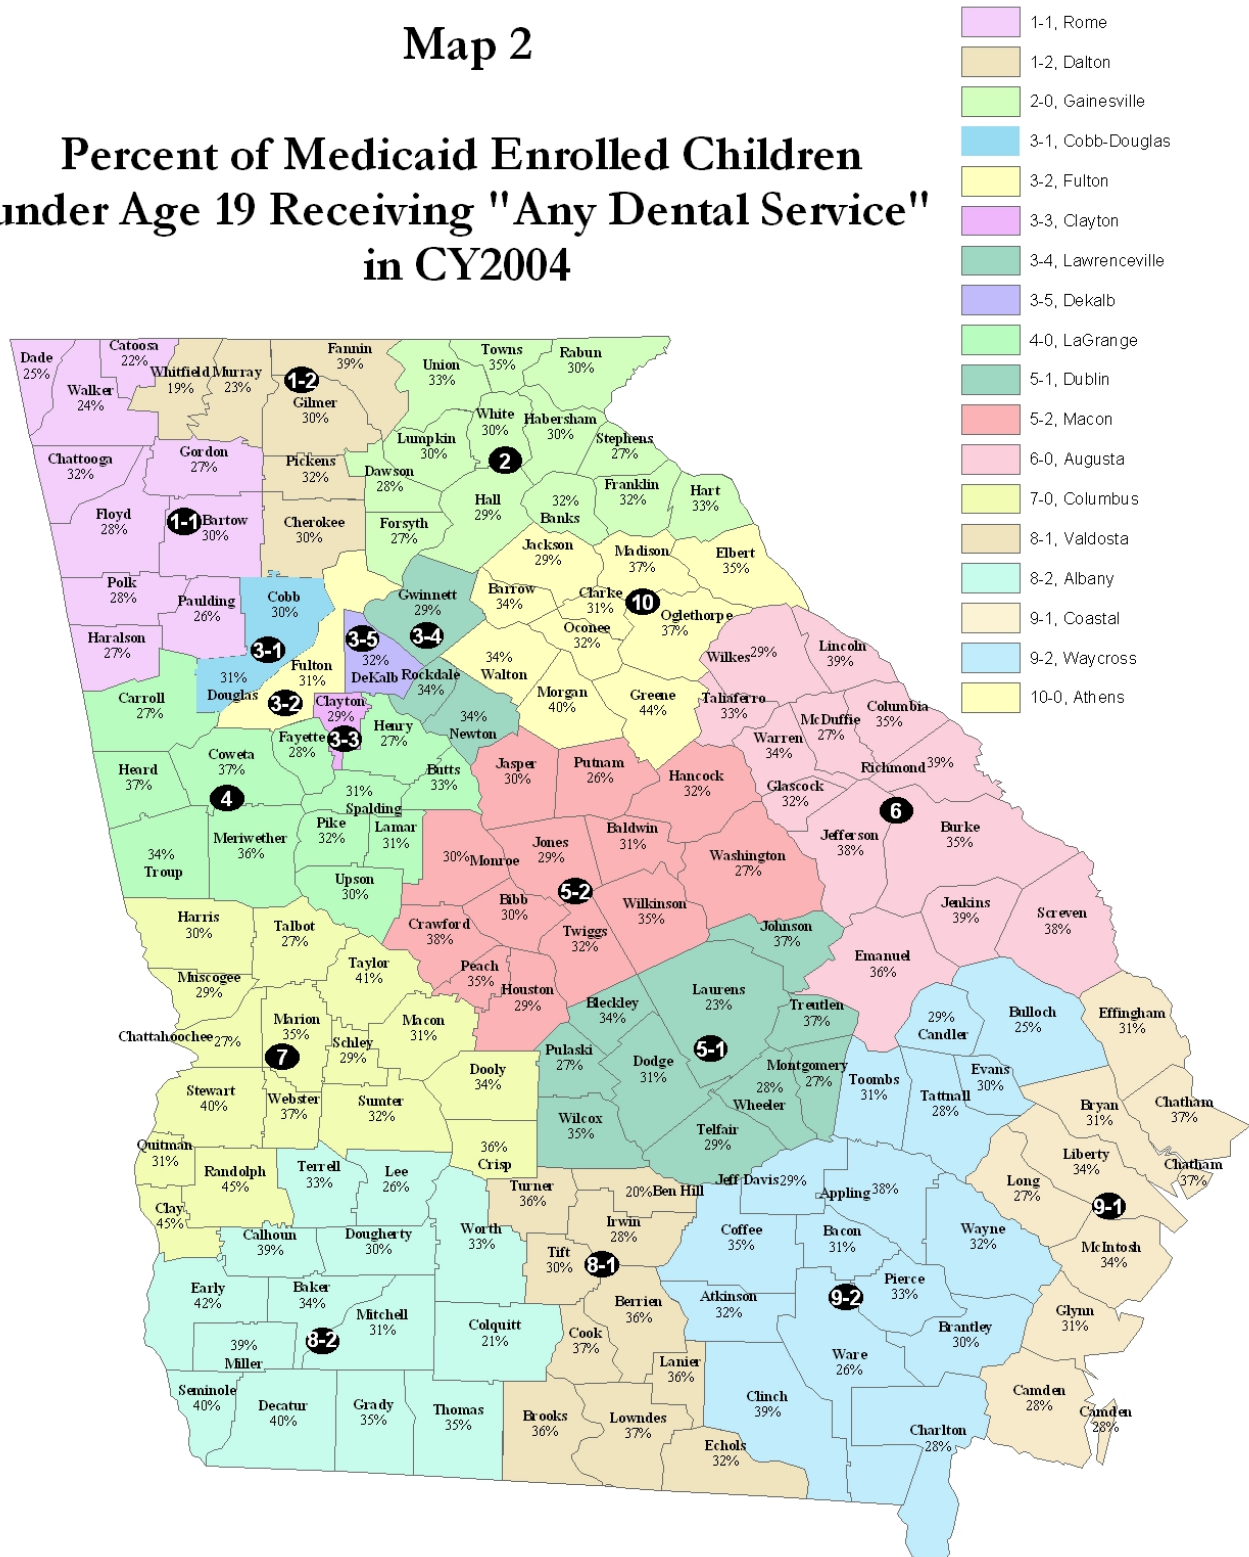

National target: 56 percent.

**Note:** Data for Figure 2 are from Figure 1.

## Map 2

### Percent of Medicaid Enrolled Children under Age 19 Receiving "Any Dental Service" in CY2004

**Percent of PeachCare Enrolled Children  
under Age 19 Receiving "Any Dental Service"  
in CY2004**

**Figure 3\***  
**Number and Percent of Medicaid and PeachCare Enrolled Children under Age 19**  
**Who Received Preventive or Restorative Services CY2004 by County, District, and Statewide**

\*Corresponds to Table 3, page 12 in the CY2003 Update.

**Healthy People 2010 Oral Health Objective #21-21:** Increase the proportion of low-income children (and adolescents) who received any preventive dental service during the past year.

National Target: 57 percent.

**Note 1:** District and County column totals do not add to the statewide total. The statewide total takes into account that children move from one district or county to another over time. See the methodology section for further explanation.

**Note 2:** District and County row totals do add to the all programs total. The all programs total takes into account that children switch between the programs over time. Row percentages are based on preventive services number denominators contained within the row. See the methodology section for further explanation.

**Note 3:** Preventive dental CPT codes = D1120, D1110, D1203, D1351, D1510, D1515, D1525, D5550; restorative dental CPT codes = D2110, D2120, D2130, D2131, D2140, D2150, D2160, D2161, D2330, D2331, D2332, D2335, D2380, D2381, D2382, D2385, D2386, D2387, D2751, D2920, D2930, D2931, D2932, D2940, D2950, D2951, D2970.

**Healthy People 2010 Oral Health Objective #21-21:** Increase the proportion of low-income children (and adolescents) who received any preventive dental service during the past year.

National Target: 57 percent.

**Note 1:** District and County column totals do not add to the statewide total. The statewide total takes into account that children move from one district or county to another over time. See the methodology section for further explanation.

**Note 2:** District and County row totals do add to the all programs total. The all programs total takes into account that children switch between the programs over time. Row percentages are based on preventive services number denominators contained within the row. See the methodology section for further explanation.

**Note 3:** Preventive dental CPT codes = D1120, D1110, D1203, D1351, D1510, D1515, D1525, D5550; restorative dental CPT codes = D2110, D2120, D2130, D2131, D2140, D2150, D2160, D2161, D2330, D2331, D2332, D2335, D2380, D2381, D2382, D2385, D2386, D2387, D2751, D2920, D2930, D2931, D2932, D2940, D2950, D2951, D2970.

**Figure 5\***  
**Percent of Children under Age 19 Enrolled in Medicaid or PeachCare Receiving at Least One Preventive Dental Service CY2004 by District and Statewide**

\*Corresponds to Figure 3, page 13 in the CY2003 Update.

**Percent of Medicaid Enrolled Children  
under Age 19 Receiving at Least  
One Preventive Dental Service in CY2004**

**Percent of PeachCare Enrolled Children  
under Age 19 Receiving at Least  
One Preventive Dental Service in CY2004**

**Figure 6**  
**Number and Percent of Medicaid and PeachCare Enrolled Children under Age 19 Who Received Restorative Services CY2004 by County, District, and Statewide**

**Healthy People 2010 Oral Health Objective #21-21:** Increase the proportion of low-income children (and adolescents) who received any preventive dental service during the past year.

National Target: 57 percent.

**Note 1:** District and County column totals do not add to the statewide total. The statewide total takes into account that children move from one district or county to another over time. See the methodology section for further explanation.

**Note 2:** District and County row totals do add to the all programs total. The all programs total takes into account that children switch between the programs over time. Row percentages are based on preventive services number denominators contained within the row. See the methodology section for further explanation.

**Note 3:** Preventive dental CPT codes = D1120, D1110, D1203, D1351, D1510, D1515, D1525, D5550; restorative dental CPT codes = D2110, D2120, D2130, D2131, D2140, D2150, D2160, D2161, D2330, D2331, D2332, D2335, D2380, D2381, D2382, D2385, D2386, D2387, D2751, D2920, D2930, D2931, D2932, D2940, D2950, D2951, D2970

\*Corresponds to Table 7A, page 20 in the CY2003 Update.

**Healthy People 2010 Oral Health Objective #21-10:** Increase the proportion of children (and adults) who use the oral health care system each year. National Target: 56 percent.

**Healthy People 2010 Oral Health Objective #21-21:** Increase the proportion of low-income children (and adolescents) who received any preventive dental service during the past year. National Target: 57 percent.

\* These numbers do not include "GAP" children: those children whose families do not qualify for public reimbursement programs, are too poor to purchase dental insurance, and lack access to dental providers.

\*\*FRLP is the Federal Department of Education Free and Reduced Lunch Program. <http://www.doe.k12.ga.us/schools/nutrition/policy.asp>

Some county-level estimates may be greater than 100% due to precision of county level Census estimates and children being counted in both Medicaid and PeachCare if eligibility changed throughout the year.

\*Corresponds to Table 8A, page 28 in the CY2003 Update.

“Out of State” is the number of licensed Georgia dentists residing outside of Georgia.

Definitions: An “Enrolled” dentist has registered as a Medicaid/PeachCare provider, and has been issued a provider number by the Medicaid/PeachCare Program.

A “participating” dentist saw at least one Medicaid or PeachCare child during CY2004. An “active” dentist saw at least one Medicaid or PeachCare child per week in CY2004.

Medicaid enrolled dentists are obtained from the CY2004 Medicaid provider file. Participating and active status is calculated from CY2004 Medicaid claims.

**Figure 9\***  
**Percent of All Enrolled Dentists “Participating and Active” in Medicaid and PeachCare Statewide per District**  
**CY2004**

\*Corresponds to Figure 5, page 18 in the CY2003 Update. There were 3,807 licensed dentists in Georgia CY2004 (from table 8B CY2003 Update).

A “participating” dentist saw at least one Medicaid or PeachCare child during CY2004. An “active” dentist saw at least one Medicaid or PeachCare child per week in CY2004.

### Numbers of All Enrolled Dentists Participating in Medicaid and PeachCare by County in CY2004

## Numbers of All Enrolled Dentists Active in Medicaid and PeachCare by County in CY2004

**Figure 10\***  
**Total Dentists per 1,000 Georgia Population by District CY2005 – 2006**

\*Corresponds to Figure 6, page 19 in the CY2003 Update. Totals as of August 10, 2006.

\*Corresponds to Table 8B, page 29 in the CY2003 Update.

Table prepared with information provided by the Georgia Board of Dentistry, August 2006. Count of licensed dental professionals by county is based upon submitted addresses for license application or renewal, which may be either a residential or business address. Each professional is counted only once.

<sup>4</sup> Totals as of August 10, 2006.

Madison	Low Income/Population Group/Community Health Center

## Georgia: Statewide

Resource Type	Currently Providing
County Health Departments	13 mobile dental units and 46 of 229 CHD* provides direct dental services at a fixed site.
Dental Hygiene Schools	13
Licensed Dentists	1,192 <sup>^</sup> of 4,357 <sup>~</sup> total licensed dentists provide services to Medicaid and PeachCare clients.
*Federally Qualified Community Health Center Sites located in the district: includes 24 Grantee sites.	13 of 157 total sites provide dental services. 1 additional CHC with 2 sites has applied for FQHC status.
Number of Schools grades K-12	2,096
Number of Schools grades PK-5	1,265

## Counties - 159

### 94 Counties Designated as \*\*Dental Health Professional Shortage Areas

The number of Medicaid/PeachCare dental providers is the most current available data provided by the CY2004<sup>^</sup> Medicaid claims data analysis. The numbers of licensed dentists is from the most current available data provided by the **Georgia Board of Dentistry** (~Rosters current as of 8-15-06).

[Georgia Board of Dentistry](http://www.sos.state.ga.us/plb/dentistry/) <http://www.sos.state.ga.us/plb/dentistry/>

\***District Health Departments** that do not provide direct dental services at a fixed site provide school based prevention services. These services may include dental sealants, oral health prevention education, fluoride mouthrinse programs; and minor oral surgeries and dental fillings.

[Georgia Division of Public Health | Oral Health](http://health.state.ga.us/programs/oral/index.asp) <http://health.state.ga.us/programs/oral/index.asp>

\*\*This district also has one fixed school health clinic site, with a dental clinic.

**County Health Departments** are listed on the Georgia Department of Human Resources, Division of Public Health web site (some counties have more than one CHD location). [Georgia Division of Public Health Counties and Districts](http://health.state.ga.us/regional/index.asp) <http://health.state.ga.us/regional/index.asp>

Data on public schools was provided by the **Georgia Department of Education**; Data Collection and Reporting Office. [Georgia Department of Education, Office of Technology Services, Atlanta Georgia](http://www.doe.state.ga.us/technology/services/atlanta/georgia)

The **Federally Qualified Community Health Centers** (FQHC) are comprised of a main Grantee FQHC and satellite sites of the Grantee. Satellite sites of a single Grantee may be located in various counties and more than one health district. Not all counties have FQHCs. Because of this, the FQHC resource list is organized by site location, rather than by Grantee location.

\*The US Department of Health and Human Services, Health Resources and Services Administration (HRSA) provides data on Federally Qualified Community Health Centers (FQHC) and Dental Health Professional Shortage Areas (DHPSA) on the **\*Geospatial Data Warehouse (GDW)** website. A count of FQHCs and DHPSAs was obtained from this website. This information was reconciled with data obtained from the **\*Bureau of Primary Health Care** (BPHC) and local resources. \*Information provided in this table is based upon the most recent data available (8-24-06) from the HRSA GDW and the BPHC (downloaded 8-29-06). This data is updated quarterly.

[HRSA - Geospatial Data Warehouse](http://datawarehouse.hrsa.gov/) <http://datawarehouse.hrsa.gov/>

DHPSA <http://hpsafind.hrsa.gov/HPSASearch.aspx>  
Databases: HRSA Bureau of Primary Health Care <http://bphc.hrsa.gov/bphc/database.htm>  
Bureau of Primary Health Care clinical services search. <http://ask.hrsa.gov/pc/>

The **Georgia Association for Primary Health Care Inc.** also provides a listing of FQHCs/CHCs and dental service sites located in Georgia.

**GAPHC: Community Health Centers** <http://www.gaphc.org/chcs/chcs.asp>

\*\*Information on Dental Health Professional Shortage Areas was provided by the **\*\*State Office of Rural Health** for Georgia and also downloaded from the **\*\*Bureau of Health Professions** web site on 8-18-06 (DPHSA).

[georgia.gov - Office of Rural Health Services http://dch.georgia.gov/00/channel\\_title/0,2094,31446711\\_32385451,00.html](http://dch.georgia.gov/00/channel_title/0,2094,31446711_32385451,00.html)
